In order to provide you with as much information as possible before finalising your selection, we have added the most recent available gradings from the **Platter's Wine Guide** to each wine. Please understand that our vintages are subject to availability from our wine farms.

A significant part of our Platinum Award status is owed to our careful selection of wines. It is a well-known fact that the 'terroir' – the soil, topography and climate – has a profound effect on the grapes producing the wine. It should come as no surprise then that all of our wines originate in the Western Cape – an area renowned for world-class terroir and home to the most revered wine regions in South Africa.
