

HOW TO PLAY

American Roulette

DOUBLE SPIN

DOUBLE SPIN ©™

Double Spin©™ is an exciting side bet on American Roulette, that allows a wager to be placed on the chances of any winning number being repeated for two consecutive spins.

GETTING STARTED

Play any of our selected Double Spin©™ Roulette tables. A player may wager any colour chip bet on the layout, once the ball has dropped, with the player having two or more colour chips straight up on the winning number, the player can choose to wager a flat bet on Double Spin©™ (i.e the winning number being repeated for two consecutive spins). Should a Double Spin©™ occur with a number winning for two consecutive spins, then a pay-out of 1200 to 1 will be made for the qualifying bets placed.

PLAYING DOUBLE SPIN©™

Playing any selected Double Spin©™ Roulette tables with a minimum of two or more colour chips straight up on the winning number, allows a player to participate in Double Spin©™ side bet. During this process the dealer, before completing the winning pay-out, will ask qualifying players, if they would like to play Double Spin©™ upon agreement, will remove 1 x chip, equal to the table minimum from the winning straight up and place it in a designated betting area of the layout.

Pay-outs will be made and the game will continue as normal.

Should the winning number win for two consecutive spin, the chips from the designated Double Spin©™ betting area will automatically qualify for a pay-out of 1200 to 1.

Roulette has never been this exciting.

Welcome to Double Spin©™ Roulette at Silverstar Casino!
